Education

Sriram Nallamani yadava college of arts and Science

July 2021 – May 2024

Bachelor of Computer Science

CGPA – 8.65

Projects

Online Assesment Platform | React.js,Node.js,Express.js,MongoDB

Oct 2024

- I developed a comprehensive Online Assessment Platform using the MERN stack designed to streamline the process of conducting online exams.
- Admin Dashboard: Admin users have access to a secure login system and an intuitive dashboard. They can create exams, schedule them, set exam duration, and manage questions with ease.
- The platform features secure authentication using JWT tokens, ensuring only authorized users have access to the system.

Job Listing Portal | React.js,Node.js,Express.js,MongoDB

Aug 2024

- Allow users to browser and search for jobs based on various filters such as locations,job type and salary.
- Users can easily apply for jobs,with their application data stored securely in the database for employer review.
- User Authentication Secure user login and registration sytem using JWT

Shopping Ecommerce website | React.js,Node.js,Express.js,MongoDB

Sep 2024

- I developed a full-featured Ecommerce Shopping Website,The platform includes both user and admin login functionality, providing secure access to different roles.
- Users can browse products, add them to a shopping cart, and make secure purchases.
- Admin users can manage the product catalog by creating, updating, and deleting products, as well as tracking orders.

Book Store App | React.js,Node.js,Express.js,MongoDB

Aug 2024

- Allow users to browser and search for Books based on various Category such as Comedy,fantasy,etc..
- Users can easily buy the books,with their data stored securely in the database,and easy to access.
- Admin can add book collection and updrage the book details,and see user Profile.

Experience

Zidio Development

July 2024 – August 2024

Web Development Internship

Bangalore

- Developed a Job Listing Portal using MERN stack technologies- React.js,Express.js and Node.js,MongoDB. and Ensured cross-browser compatibility and accessibility for all web pages.
- conducted through testing and debugging to identify and resolve performance issues and Enhanced overall user experience through the implementation of modern web design principle.
- Collaborated with the design team to implement dynamic website features and interactive user interfaces, Utilized version control system like Git and GItHub for efficient project management and collaboration.

The Website Makers

Sep 2023 – Dec 2023

Web Development Internship

WFH

- participated in online training sessions focused on web development course,and gained hands on experince in front-end development like Html,Css and javascript.
